NCERT Solutions for Class 4 EVS Chapter 17 Nandita in Mumbai

Here, we have provided NCERT Solutions for Class 4 EVS Chapter 17 Nandita in Mumbai to help students prepare more effectively for their exams.

Question 1:

Why did Nandita have to bring her mother from the village to Mumbai?

Answer:

Cities like Mumbai provide advanced medical facilities compared to those available in villages. In the story, Nandita had to bring her mother from their village to Mumbai for better medical treatment, highlighting the contrast in healthcare quality between urban and rural areas. This situation underscores the importance of accessible and well-equipped medical services for those in need.

Question 2:

Nandita used to feel like vomiting when at first she had to use the toilet where Mama lived. Why?

Answer:

The toilet used by everyone on the street was always dirty and emitted a foul odor. Due to its poor condition, Nandita felt nauseous whenever she had to use the toilet where Mama lived. The unhygienic state of the facility made it a distressing experience for her.

Question 3:

In what ways did Nandita find her Mama's house to be different from her house in the village?

Answer:

Nandita noticed several differences between her Mama's house and her house in the village:

In her village home, Nandita had a separate cooking area, whereas Mama's house did not have a distinct cooking space.

Her village house featured a courtyard, which was absent in Mama's house.

Nandita's village house included a separate bathing area, unlike Mama's home, which lacked this facility.

Question 4:

What differences did Nandita find between getting water from the public tap and in the village?

Answer:

In Nandita's Mama's house, there is no tap for water, which means the family has to stand in long queues at a public tap. This can be very inconvenient, especially when the queue is long, and they may not get enough water if they arrive late.

In contrast, although Nandita's village house also lacks taps, the situation is different. The villagers fetch water from a nearby pond, and if the pond runs dry, they can walk to a river to collect more water. This system provides a more reliable source of water without the need for long queues.

Question 5:

Was there electricity at the place where Nandita's Mama lived? Guess.

Answer:

Yes, Nandita's Mama's place had electricity, which was one of the conveniences that differed from her village home. While Nandita's village might not have had consistent electricity, Mama's house in the city enjoyed the benefit of regular electrical supply, making daily activities more convenient and modern.

3. Looking down from heights of higher floors

Question 2:

What were the differences between the houses where Mama lived and the houses in the high-rise buildings?

Houses in the area where Mama lived

Houses in a high-rise building

Answer:

Houses in the area where Mama lived

Houses in a high-rise building

Public toilets

Personal toilets for each family

No separate kitchen

Separate kitchens

No water taps in the house

Water taps in every house

No glass windows

Glass windows

Question 3:

Discuss why there were differences.

Answer:

The differences in living conditions arose because Mama could not afford to buy, build, or rent a house in one of the high-rise buildings. These high-rise apartments are very expensive and come with various amenities that are out of reach for those with limited financial resources.

Answer:

No, people in my family do not have to travel far for their work. My father works at a nearby government hospital, which is 2 km away from our home, while my mother works at a school that is 6 km away.

Discuss

Question 1:

Is it right that Mama and others have to move because a hotel is going to be built there?

Answer:

It is right that Mama and others need to move if the land is not their own and is being used for a new development like a hotel. However, it is important that the authorities ensure the new location to which they are relocated has essential amenities such as water, electricity, and toilets. Providing these basic facilities is necessary to support their well-being and ensure a smooth transition to their new living conditions.

Question 2:

Who will benefit from this?

Answer:

Yes, the owner of the hotel and the land will benefit from this development.

Question 3:

Who will face difficulties?

Answer:

Mama and others currently living in the area will face several challenges due to their displacement.

Question 4:

Do you know of any people who have faced problems similar to Nandita's Mama? Talk about it in class.

Answer:

Yes, I am aware of some unapproved houses where the owners had to relocate. Approximately 40 families were forced to move from these properties due to the lack of official approval and subsequent legal issues. This situation often arises when properties are built without proper permits, leading to challenges for residents who must find new homes and adjust to a different living situation.
